

Project Demo Planning

Date	05-07-2026
Team ID	
Project Name	OptiCrop: Smart Agricultural Production Optimization Engine
Maximum Marks	1 Mark

Project Demo Planning:

A well-structured demo plan ensures that the team presents the project effectively, covering all key aspects in a clear and organized manner. This document outlines the plan for demonstrating the project, including the flow of the demo, key features to highlight, and responsibilities of each team member.

S.No	Demo Section	Description	Duration (mins)	Responsible Member
1	Introduction	Introduce the project and explain the objective	1	Ejjipurapu Kavya (Self)
2	Problem Statement	Explain the agricultural problem and the need for crop recommendation	1	Ejjipurapu Kavya (Self)
3	Problem Statement	Explain the Machine Learning model, Flask application, and system architecture	2	Ejjipurapu Kavya (Self)
4	Live Demonstration	Enter input values and demonstrate crop prediction	3	Ejjipurapu Kavya (Self)
5	Results & Future Scope	Explain prediction results and future enhancements	1	Ejjipurapu Kavya (Self)
6	Conclusion	Summarize the project and answer questions	1	Ejjipurapu Kavya (Self)

Demo Flow Summary:

Step	Activity	Notes
1	Introduction & Problem Statement	Introduce OptiCrop and explain the importance of crop recommendation.
2	Solution Overview	Explain the workflow, Machine Learning model, Flask framework, and technologies used.

3	Live Feature Demonstration	Launch the application, enter sample values, and show the predicted crop.
4	Q&A Session	Launch the application, enter sample values, and show the predicted crop.
